FAIR SUCCESS SURE

GREAT CROWD TURNS OUT FOR
THURSDAY'S FINE SHOW

Weather Is Delightful And Thousands
Come From Far And Near—
Winners First Two Days

The Knights of Pythias fair at Stanford is a big success this year. Notwithstanding the drizzle of Wednesday which kept the crowd down to a minimum, Thursday turned out cool and clear as a bell, and the people came by the thousands. The amphitheatre was filled early and after that they streamed all over the beautiful, shady grounds and had a fine old-fashioned time, meeting and greeting friends and loved ones. Many who had not been back to Lincoln county for a score of years, came back to the fair this week, making it a sort of homecoming event, and all seemed to enjoy themselves immensely, meeting old friends and renewing acquaintances of years gone by. Friday's weather conditions would be hard to improve upon either, and it promises to be a record-breaker in point of attendance.

Thursday's program was a well balanced one and enjoyed to the fullest by the big crowd. The feature was the walking ring for mares, in which about a dozen entries contested. This was won by Deputy Internal Revenue Collector Rowan Saufley with his crackling good black mare, James B. Leavell, of Bryantown, who rode the mare with a complete list of Thursday's awards are as follows:

Wednesday's program was a splendid one and notwithstanding the inauspicious start in the morning, quite a number went out. The stock show was very good, competition being very keen in many of the rings. A great deal of interest is attaching to the show of Red Berkshire hogs, almost every breeder of this popular strain having representative here. Wednesday was occupied with judging of herds and individuals. Some splendid specimens of the porcine family are on exhibition, and the hog tent is quite a center of attraction. The colts were very good, the stake being won by T. A. Brent with his slashing filly by Carroll Bailey's Rowland Peavine and out of a Bourbon King mare, taking the blue in a field of nine entries, with Rowan Saufley's filly by Ashland Brook, second. This filly had previously won the blue in the suckling filly ring, and is a beauty.

Prof. J. J. Hooper, head of the Department of Animal Husbandry of the Experiment Station at State University, Lexington, came over especially to judge the milk cow ring. In this ring the milk is drawn from the cow on the grounds, and is tested by the government expert for butter fat and other desirable ingredients. Rowan Saufley won in this ring, with a splendid cow with J. B. Camenisch, first and second. Prof. Hooper agreed to write out the complete record of the examination and to back to the I. J. for publication.

The first day's awards were in the main show ring as follows:

One Hobo Was Killed

Another Injured and Three More
Buried In Wreck Near McKinney.

One "hobo" was killed, one badly injured and three others are said to be buried beneath the wreckage, and 22 freight cars and their contents are piled up in an indiscriminate mass, as the result of a very bad freight train wreck which occurred in the Cincinnati Southern railroad, just south of McKinney, and at a turn north of South Fork about half past two o'clock Monday afternoon. Just what caused the wreck has not been ascertained as yet and may not be fully learned for the wreckage is piled almost sky high. The train was No. 52 and was running north at a rapid rate of speed when the crash came and the heavily laden cars piled one on top of the other in a hurry. Wrecking crews are doing everything in their power to clear up the wreck but traffic will be delayed for some time on account of it.

A dead tramp was taken from the wreckage, and one very badly hurt. This man said that there were five of his tribe on the train, beating their way north, and the bodies of the others were supposed to be under the wreckage as they had not been found up to Thursday morning.

Most of the cars were loaded with lumber, fruit, and merchandise. There were several live stock cars on the train but so far as known no live stock was killed.

When Clubs Are Trumps

(By Miss Willie Hocker)
In ancient days, so we've been told, No man would be a sub; He went about with a sword bold Armed with a single Club. And if the good wife failed to cook His bear steak to a turn, From out his belt the club he took And drubbing she would earn.
In latter days, so we've found out, No woman is a sub; With modest mien she goes about Backed by The Woman's Club. And when she waits on the streets Or some good work begun, In council she as equal meets Her former master, Man, And as co-workers on life's road The equal "pull" makes light the load.

HIDDEN DANGERS

Nature Gives Timely Warnings That No Stanford Citizen Can Afford to Ignore.
DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are weak. Well kidneys excrete a clear amber fluid. Disordered kidneys send out a thin, pale and foamy, or a thick red, ill-smelling urine, full of sediment and irregular of passage.
DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, suggest weak kidneys and in that case warn you of the danger of dropsy, gravel and Bright's disease. Doan's Kidney Pills are endorsed by thousands. Here's Stanford proof:
B. Holderman, Stanford says: "I used Doan's Kidney Pills and they proved to be just as represented. My kidneys were weak and I had back ache. Hearing Doan's Kidney Pills highly praised I used them and they relieved me."

A splendid spirit was manifested throughout the two days of the association. The attendance was very representative, and everything possible was done by members of the Stanford Association to make the stay of their guests pleasant.
Rev. Athy, pastor of the church at Harrodsburg, will preach the annual sermon at Danville next year. One of the delightful features of the session was the annual sermon preached here Tuesday by Rev. F. W. Eberhardt, pastor of the Danville Baptist church. He was heard by a large audience, who were greatly pleased with his discourse, and his clear and forceful method of representing the plain and unvarnished gospel of Jesus Christ. He held up a picture of Christ on the cross as a guiding spirit for members of the association in their social, political, business and religious lives.

Vandever For Congress

Socialists of Eighth District Nominate Former Stanford Man.

The Socialists of the Eighth Congressional District have nominated D. W. Vandever, of Richmond, Ky., as their nominee for congress. This announcement will be received with much interest here where Mr. Vandever was born and reared, and has a host of friends. He is a son of Mr. M. O. Vandever, of this city. The Socialist party will poll a much larger vote in Lincoln county at the coming election than ever before, and its ardent workers are very enthusiastic. A local has been organized at Rowland, and already 54 members have been enrolled, and headed by Thomas Ashlock are doing much work for their party.

Mr. Vandever has been an advocate of Socialism for many years and predicts a large vote for his party this year. He declares his Party is not one of compromise nor is it for a bloody revolution, but it is for constructive legislation as the means to an end the abolition of the present state of competition and the establishment of a Co-operative Commonwealth to take its place in the industrial life.

We propose to apply the Golden Rule to management of industries," said Mr. Vandever, and establish an Industrial Democracy that will make possible a social order in which the teachings of Jesus will be carried out in our industrial life and social relations with our fellow men. We demand the public collective ownership of the principal means of life, such as the railroads, coal mines and big industries owned by the Trusts. This will in no way interfere with the farmer, except where the farmer may be a trust magnate but will bring about a greater prosperity, just as the parcel post has been advantageous to the rural districts, for the farmers and working people in general. We are for the abolition of child labor, and for compulsory education and we demand an eight hour work day, but these demands are only a part of the program whose ultimate goal is the Co-operative Commonwealth and the establishment of the brotherhood of man.

The definition of Socialism as given by the American Year Book Cyclopaedia and Atlas is as follows: No word has been more abused and misunderstood than the word "Socialist." The Socialist is not an anarchist; the two are opposed in theory and practice. The Socialist does not propose to destroy the family, abolish religion or divide up property nor does he seek to carry out his ideas by riot and bloodshed. In a single phrase, Socialism means public ownership of the means of production and working class control of the government, a chance to work for all who will, and to all workers the full value of their product. The typical Socialist is a rather quiet and thoughtful working man, serene in time of trouble and self-contained in the day of victory. He realizes that the world will move very well after he is dead, but remembers that while he lives it is his business to help the world move. He considers himself an ally of eternal laws of nature and is proud to do his little part in the great cause. (Adv.—1t.)

A BIRTHDAY GATHERING

There is nothing more beautiful in life than the mingling together of youth and advanced age, with reciprocal appreciation one for the other. This was most beautifully demonstrated on the 20th of August when the children, grand-children, great-grand-children and other relatives and friends met together at the home of Mrs. James Cox, near Hubble to celebrate her 78th birthday. Hers is indeed a remarkable history. The companion of her youth is still spared to gladden and cheer her heart at this advanced age. To her also came one of earth's greatest blessings—that of motherhood. Eleven children came into her life, six daughters and five sons, eight of whom were present on this occasion. Thirty-six grand-children and thirty-seven great-grand-children will brighten or mar the pages of family history as the years go by.
It was a beautiful picture when the aged grandmother held in her arms her youngest great-grand-child, who is six weeks old, pronouncing a blessing as only a christian grandmother could. A bountiful dinner added much of interest and pleasure to all present, after which the social hour was enjoyed, in discussing the reminiscences of other days. A song and praise service most fittingly closed this most enjoyable day. S. E. H.

Allen—Steele

Popular West End Young People Wed at Danville Wednesday.

Mr. L. F. Steele and Miss Nell Allen, accompanied by members of the latter's family, drove to Danville from Hustonville Wednesday and at the home of Eld. H. C. Garrison, of the Christian church, were pronounced husband and wife by that gentleman. After the ceremony they left on the Queen & Crescent for Chattanooga, where they will spend a day or so on Lookout Mountain, and then to Asheville, N. C., for a brief sojourn. The groom is the popular and hustling telephone magnate of Hustonville and is one of its best and most enterprising citizens. The bride is the youngest daughter of Mr. and Mrs. John J. Allen and is a charming, pretty, highly accomplished and possesses a wide circle of friends. The two have been sweethearts for a long time, and while it was generally believed that they were married, the early date of the happy union will come as a pleasant surprise to even their closest friends. The Interior Journal, which claims a place in the friendship of both bride and groom, extends its heartiest congratulations and wishes Mr. Steele and his pretty wife all the good things that can come to them on their journey thru life.

D. M. WALKER, PRES.

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring; if your nerves are excited; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions.

It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

Scott's is strengthening thousands of mothers—and will help you. No alcohol. Scott & Borden, Bloomfield, N. J.

Around the Ring

Judge John W. Hughes, the popular collector of this district, shook hands with almost everybody at the fair yesterday. He knows 'em all.

James P. Tribble arrived last week from Akron, Ohio, for the fair. He left Sam Embury doing nicely there. Claiborne Walton had arrived the day before he left and was in quest of a job.

Mack Hughes has five good ones and is getting his share of the blues with them. Mack has grown grey in the work of showing horses, but he gets better as the years accumulate.

The Danville Military Band is all right, making sweetest music and an abundance of it. The Knights of Pythians on the music committee did the right thing when they got their friends over at Danville to furnish the music.

Charley Sandridge looks as young as when he first began showing horses back in the eighties. He always has a broad winner or so and invariably gets his share of the applause from the grand stand, and the blue ties as well.

Col. John B. Dinwiddie, the "silver-tongued" auctioneer, of Moreland, makes an excellent ring master. His stentorian voice can be heard all over the grounds and he is always in the right place. The Colonel was made for the job.

Editor D. M. Hutton and G. M. Ballard, of Mercer county were here Tuesday advertising the big sale of a splendid Mercer county farm which the latter will hold on August 29th. See his big advertisement with full description of the farm etc in another column.

Mrs. T. L. Carpenter proved herself an excellent reinwoman by driving her pretty pony in the roadster ring for that class. She did not win but she had many friends in the crowd who thought that she should have gotten a tie.

Ernest C. Pepples, the sixth division officer of the Industrial School at Greendale is at home for the K. P. Fair. "Pep" has had charge of this division for two years and has had all the way from 30 to 45 boys in charge and has never let any escape.

Big and clever H. T. Martin, Marion's superb sheriff, was a popular visitor at the fair yesterday. For years Mr. Gartin was an honorary vice-president of the Hustonville fair and he has not lost interest in Lincoln county enterprises, notwithstanding the fact that Hustonville no longer has a fair.

President W. H. Hoover, of the Knights of Pythias Fair at Nicholasville, which begins next Wednesday, was over the first day of the fair, accompanied by Julius Von Gruenigian. They did some tall boasting for their fair and incidentally put in a good word or so for their home town.

The McCray Bros., of North Middletown, are popular horsemen and they have a string that generally gets the goods. In the combined ring yesterday afternoon there were those present who thought that their bay mare should have won over Edgar Doty's gray gelding. The McCrays brought along their auto and spend the nights at Crab Orchard Springs.

It was worth the price of admission to see Mr. Jim Ed Bruce enjoy the hog show. He went early Wednesday and remained until late and was hardly ten feet away from the hog tent during the day. It might be added that it was the best show of hogs that has been seen in this section for a long time.

Gatewood Beasley put one over on Morgan Baughman in the roadster ring for ponies Wednesday afternoon. Morgan got Gatewood to drive one of his ponies while he drove the other and Gatewood got the blue and Morgan had to be content with the red. Gatewood will be known as Bud Doble, the second, from now hence.

Mr. and Mrs. W. C. Tucker left Tuesday morning for Marion, Ohio, where he holds a position with the Erie railroad. Young Mr. Tucker was badly scalded in a railroad accident some weeks ago and has been here at the home of his parents, Mr. and Mrs. W. C. Tucker recuperating. He is expected to return again and will return to work at once.

Clyde Sturgeon, the hustling young general manager of the Sturgeon Real Estate Agency, was in Stanford early in the week having some more nice printing done of his office by the I. J. job department. Mr. Sturgeon is almost as good a judge of nice work done in the right way.

Jep Chenault and William Woodard, with a pair of nine foot hounds, were all mixed up in an automobile wreck last Thursday night on the Richmond pike, out of Lexington. The two men were returning from a fox hunt in Madison county when their car left the road and went over the embankment near the Kentucky river. The car was badly smashed up, but neither the hunters nor the dogs were in any way injured.

Mr. and Mrs. J. M. Owsley, of Roachdale, Ind., are at Crab Orchard Springs and accompanied by J. H. Dadds, of the same city, were in Stanford Wednesday and expect to come back Thursday.

Miss Oma Simpson, the deaf-blind girl who has been the personal pupil of Miss Sophia Alcorn, of this city, at the School for the Deaf at Danville, for several years, paid her instructor a visit the past week. The education of this young lady has been every whit as remarkable as that of the famous Helen Keller. To the untiring energy, patience and skill of her teacher, Miss Alcorn is due the fact that, although born deaf and blind, she is able to read, write and talk. Everyone who had the privilege of meeting her while here, was impressed with what she has accomplished. She was introduced to a number of friends, was taken auto riding and seemed to enjoy herself greatly on the visit to her teacher.

"Doesn't that good horse remind you of Jack Barrymore?" said a judge of horse flesh, as Edgar Doty rode his magnificent grey gelding into the combined ring Wednesday afternoon. By the way Mr. Doty is said to have turned down an offer of \$2,500 for the splendid fellow. The green roadster ring Wednesday afternoon afforded much merriment.

Judge Mackin gave the blue to Jno. Rankin and the red to Clay Davis. After the strings had been placed Bob and Jim Woods, who got left afforded the crowd much amusement by a genuine horse race. Their animals were pretty well matched in speed and they took a time about passing each other. Both are unusually good reinmen.

Had Indigestion and Cramps

Now This Danville Man Has No Trouble With His Stomach

"Yes sir, I had indigestion and severe cramps before I took Tanlac" said Mr. Joseph E. Wendel, who lived at 604 Boone street, Danville, Ky.

"I also had dizzy spells and could hardly do my work. I really lost all ambition and energy."

"Tanlac was recommended to me by my sister. The dizzy spells got better soon after I began taking it and in a little while my stomach pains had almost entirely disappeared."

"Tanlac not only relieved me but, also benefited several friends to whom I endorsed it. It is certainly a fine remedy."

The wonderful success of Tanlac is known to everyone. No matter where you go Tanlac is a household word. It is the story of merit better obtained by a proprietary medicine.

The production of Tanlac now stands at the rate of almost 5,000,000 bottles per year.

These enormous sales mean but one thing and that is merit. It is the repeat sales that count. When the first bottle accomplishes good results a second bottle is always sold. In thousands of cases people have come forward with their personal endorsements. These are facts as indisputable as the rock of Gibraltar. They prove that Tanlac has relieved stomach, kidney, liver and catarrhal ills.

Tanlac is being specially introduced in Stanford at the Penny Drug Store, E. R. Coleman, Prop.

Tanlac may be obtained at the following nearby cities: Moreland, Abraham Minks; Hustonville, Adams Bros.; McKinney, True & Co.; Ellisburg, W. C. Bryant; Crab Orchard, Lyne Bros.; Broadhead, John Robinson; Lancaster, R. E. McRoberts; Bee Lick, J. Reynolds & Son; Waynesburg, W. A. Horton.

TO WHOM IT MAY CONCERN

The waters used by Mrs. A. P. Hunn in her boarding house were collected by Drs. W. B. O'Bannon and J. G. Carpenter, members of the Lincoln County Board of Health, in utensils and containers and sent the Health Officer by the Kentucky State Board of Health under its special written directions to collect said waters. The containers were filled and locked by us and key sent to the Board of Health. The water was found to contain typhoid fever bacteria. No typhoid bacilli were present. The doctors, madam rumor and members of the Ananias Club are mistaken about the origin of recent cases of typhoid being at Mrs. Hunn's. Her place has been inspected by the Board of Health and she has used precautions to keep her place sanitary.

Typhoid fever exists at present in many Kentucky towns and counties in Kentucky. Simple continued fever; para-typhoid; worm fever; the fever of auto-intoxication; mania a portu with congestion of the liver, kidneys and stomach and matrimonial fever and remittent fever, often resemble typhoid and the differential diagnosis very often is difficult. Often can not be made by the practitioner of typhoid fever for a week or ten days. Many physicians diagnose about every case of fever "typhoid" even if only lasts one week or two weeks. Typhoid fever is a specific disease, due to a specific bacillus of which only produces typhoid fever. Typhoid fever at the shortest period means six weeks or longer in bed with numerous complications and sequelae and it takes months and a year or more to recover from typhoid fever and its complications.

The soil often contains virulent typhoid germs six months or longer; people who have had typhoid fever though will become the carriers of typhoid fever germs, and can convey the disease to other people. Water used at soft drink houses, restaurants, that are used in lemonade, sherbert and milk from some dairy farm house where the spring or well is poisoned with typhoid germs and milk utensils washed in typhoid water can convey typhoid germs to those who use the milk.

Flies are the most potent factors in conveying typhoid fever and all other contagious diseases. Catch and kill the flies.

Everybody under sixty years of age should be vaccinated with anti-typhoid serum or bacterin once a year. Do away with stables and wells; catch and kill all the flies; destroy by chemicals; boiling water; or fire all typhoid discharges from the bowels and kidneys; build a Kentucky State Board of Health concrete underground sanitary vault for your privies and sewerage, fly-proof and use the individual drinking cup every day even at the Communion Table. Scald or peel all fruits and vegetables; then typhoid fever will be a disease of the past and not the present and future. 67-1t. Resp.

J. G. CARPENTER, Health Officer Lincoln County Kentucky.

Heat Kills Fine Hogs

Hon. W. G. Gooch Sustains Heavy Loss in Death of Best Hog

The first serious loss of stock at the fair grounds this year was the death of Hon. W. G. Gooch's fine thoroughbred Red Berkshire boar Little Prince. The animal is believed to have become overheated while being driven to the fair grounds Monday. He became ill and died Tuesday and his carcass was removed from the grounds that afternoon. The loss is a very severe one for Mr. Gooch, who had counted upon this animal taking the blue in the sweepstake for a certainty. He was a magnificent specimen of this popular breed and was valued by his owner at several hundred dollars. Little Prince was a three-year-old. He was the sire of a large number of fine young pigs.

WALKER LOSES FINE SOW

Another fine Red Berkshire succumbed to the heat Tuesday night, when Woods Walker, of Paint Lick, lost his "Little Princess." She became very warm coming over in a car, and died notwithstanding all that could be done for her. She was about 18 months old and easily worth \$100.

Great Roadster Mare

Uncovered by Senator Hubble To Be Shown Here This Week.

Great interest has been aroused in the sweepstake roadster ring at the fair, which will be decided Friday, by reason of the fact that Senator R. L. Hubble's mare Ailsa Page will be the contender for the blue in this event. This great harness mare has been sweeping all before her in the show ring during the present season. Mack Hughes, of Danville has been training and driving her, and he has never met with really serious competition, save at Perryville, where the judges placed her second, though many thought that she should have had the blue without a question. Altogether she has been shown nine times and has won eight blues and one red. Her money winnings so far have amounted to close to \$400, and the fair season is not over yet. The hardest competition Ailsa Page met was at Lawrenceburg last week. A crack roadster from Frankfort was brought over to beat her, but she trotted the Frankfort wonder off its feet in no time, and won as she pleased. So far never yet has Ailsa Page "broken" while being shown, and she appears to improve with hard work. Senator Hubble bought the mare about a year ago from Sterling Curtis and drove her all winter to his buggy, going to and from his farm. Her appearance in the Stanford ring will be watched with great interest by the home folks of her owner. Experienced horsemen who have seen her, have urged Senator Hubble to secure an entry for her in the big roadster stake at the state fair, and he may decide to do so, if she keeps up her good work.

AUTO ACCIDENT FATAL

Dr. B. E. Taylor, of Columbia who was injured early in the week in an auto accident on the Campbellsville and Columbia turnpike, four miles north of Columbia when the car in which he was riding and driven by his daughter-in-law, plunged off a bridge and turned turtle, died Wednesday morning at his home at Columbia.

Middleburg

The weather has been extremely hot but they say that it has not been as hot as it will be yet.
Miss Essie Haney has returned from Broadhead.

Those who attended the Liberty fair from here say they had good crowds, but don't speak much of the stock.
Mrs. Helen McMullen died of what was pronounced pneumonia at the home of her son on Saturday, August 19, Friday afternoon. She had been ill for more than a year but her condition did not become serious until a few months ago. She was about 55 years of age, a member of the Green River church and a good-hearted, hearted woman. Funeral services were conducted late Saturday afternoon and the remains laid to rest in the Green River cemetery.

Mrs. J. B. Floyd died Saturday at her home, two miles from town. The remains were brought here Sunday morning and after a beautiful funeral service by Rev. J. W. Beagle were laid to rest in the Middleburg cemetery.

The Baptist association which was held here last week was well attended and was thought by many to have been the most interesting held here during several years. We noted the following preachers present: Rev. E. N. Cookley, Waynesburg; W. G. Tilford, Eubank; R. Abernathy, president of Russell Creek Academy, Campbellsville; Bro. Wood Williamsburg; Prof. Ragland, from Georgetown; Rev. Coker and Owens, Pleasant Point; Rev. Brandenburg, Hustonville; and Rev. Chick, pastor at Liberty. The meeting next year will be held with Pleasant Point church and Rev. Chick was chosen to preach the annual sermon.

Mr. and Mrs. Elmer Payne, of Eubank, have given the association an automobile, but had to come by way of "Robin Hood's barn" to get here. There were others from Eubank in attendance but we failed to get their names. J. M. Reynolds was over, from Waynesburg. In fact an association without Jimmie would be a complete failure.

Rev. J. L. Dotson and C. T. Claunch and wife were here from Harrodsburg.

Dr. Walter, of Lancaster is here doing some dental work.

Mrs. Clara Sharp and little son, Murrell went to Liberty Saturday to visit relatives.

Jesse Fredrick was here during the association soliciting funds to be used in building a church on the road leading from Mt. Salem to Kidd's store.

William Norris, who has lately purchased the McCormack farm is heading this movement and has contributed liberally to the fund.

Mr. Fredrick assured us that the church was a go and that the people were determined in their efforts.

Announcement was made Thursday that the committee of railroad presidents have agreed to accept President Wilson's proposal of an 8-hour day for railroad men, providing they can obtain higher freight rates.

SINGLETON'S STORE

The farmers are rejoicing over the recent good rains.

Mr. Charlie Rankin, Mr. Hayden Leavel, Mr. Dave Kennedy and Mr. S. M. Helm are camping with their families at Mix Springs and are doing some fox hunting while there and enjoying life to the fullest.

A fairly good crowd attended the stock sale of J. T. Wells and all of the stock sold fairly well.

Mr. Bishop, of Louisville, who is operating a ditching machine on the R. H. Bronaugh farm is doing fine work having received 6 car loads of filling and will receive 10 more in the near future.

Mr. Henry Messer went to Cartersville to see a doctor of that little village.

Mr. James Dyche sold 13 shoats to Andy Tesford for two dollars. Charles Davis bought a good milk cow from T. Noland at a fancy price.
